Community Members,

The thing that burns me up the most about residential burglaries is that it is a total invasion into your privacy and personal living space. We all can rightfully expect to be secure in our homes and be in a place where we can relax and get some rest from the hustle and bustle of everyday life. Although our numbers are looking pretty good as YTD in 2018 there were 157 reported burglaries as compared to 79 YTD in 2019 a 50% reduction there is more work to do. Recently the plainclothes Taraval Neighborhood Team, TNT, took down a burglary crew from the East Bay who were coming to San Francisco and posing as utility workers. Working together Crime Scene Investigations (CSI), TNT and the Burglary Unit developed investigative leads and followed up with search and arrest warrants which led to the recovery of items stolen in several home burglaries as well as the arrest of two suspects, job well done. The case now is with the District Attorney's Office let's hope for a good outcome in the courts that supports the community. I continue to monitor trends of when and where burglaries are happening and this information is pushed out to all patrol Officers in a weekly intelligence report so they can focus on effected areas. Plainclothes Officers are also watching these areas so criminals beware.

If someone shows up at your door unscheduled and says they are with a utility company such as PG&E, a cable company or any other service and that company has not been in contact with you prior that could be a sign they are not who they say they are. Ask for ID, call the 800 number for the company or call the police we can sort it out.

Continued from the page 1

So the other thing that really gets under my skin is when burglaries are committed at residences under construction where a lot of high value power tools are stolen. There has been a rash of these types of burglaries lately and my focus has turned to catching those responsible. These contractors who have been victimized are hardworking people trying to make an honest living and they have the means by which they make a living stolen from them.

If you see something strange going on at a worksite outside of normal business hours give the police a call, again we will sort it out. Additionally I would like to add to the message of "If you see something, say something". If you see something you can also "video that something" most of us have cell phones handy and video of criminal activity provides investigative leads we otherwise may not get.

In closing I wrote last month about safe driving and I want to give a reminder that traffic enforcement will be ongoing especially around our 5 areas with the most collisions which we call the "focus on the 5". Drive the speed limit, put your phone down and yield to pedestrians I know I've said it before and I'll say it again but it's not worth it if you are the cause of a collision for not being attentive to the road and the laws.

Follow me on Twitter at [@SFPDTaraval](#) for some really interesting tweets and go to [Taraval.org](#) for much more information on crimes tips, traffic safety, home safety and much more.
